LOUISVILLE DISTRICT

NEWBURGH LOCKS & DAM

LOCK CLOSURES

OHIO RIVER MILE 776.1

Newburgh Locks and Dam: The primary (1,200 ft.) chamber will be closed from **June 7th through October 4th, 2018**. The purpose of the closure is for the Heavy Capacity Fleet to repair the upper and lower miter gates in response to increased wear at the pintle areas. Concurrently, a contractor will repair floating mooring bit tracks on the primary chamber's river wall. All traffic will be passed through the auxiliary (600 ft.) chamber during this time.

The auxiliary (600 ft.) chamber will be closed **June 4th through June 6th** and again from **October 5th to October 9th, 2018** to allow the Heavy Capacity Fleet to stage and offload equipment for the primary chamber repairs. The primary chamber will be open when the auxiliary chamber is closed during those dates.
